A prospective graduate/doctoral assistant must be enrolled as a regular, degree-seeking student in The Graduate College. Graduate/doctoral assistants may be employed as teaching assistants, instructional assistants, research assistants, or graduate assistants. The information below can also be found in UPPS 07.07.06. Salaried Graduate Student Employment.

**Types of Graduate Assistantships**

- **Graduate Teaching Assistants and Doctoral Teaching Assistants (GTA/DTA)** are employed by an academic department, paid from faculty salaries and reported as the “teacher of record” for an organized undergraduate class. Graduate teaching assistants and doctoral teaching assistants receive a faculty contract for a semester or the academic year, are paid on a monthly basis, and are exempt from The Fair Labor Standards Act (FLSA) under the learned professional exemption. The student must hold a master’s degree in the teaching discipline or have completed eighteen graduate semester hours in the teaching discipline. (Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) Principles of Accreditation.)

- **Graduate Instructional Assistants and Doctoral Instructional Assistants (GIA/DIA)** are employed by an academic department, paid from faculty salaries, but are not reported as the “teacher of record.” Graduate instructional assistants and doctoral instructional assistants are responsible for a specific group of students (typically undergraduate students) and assign some portion of these same students’ grades. If graduate students are assigned as instructional assistants in graduate courses, they cannot grade other students’ work nor have access to their grades. In rare circumstances, the dean of The Graduate College will allow an exception for doctoral instructional assistants assigned to master’s level classes, provided there is no conflict of interest. The academic department may pay graduate instructional assistants’ salaries for those assisting in the operation of a lab or an activity or recitation group from course fees collected for this purpose. Graduate instructional assistants and doctoral instructional assistants are appointed for a semester or the academic year, paid on a monthly basis, and are exempt from the FLSA under the learned professional exemption.

- **Graduate Research Assistants and Doctoral Research Assistants (GRA/DRA)** are employed by a department or university office and may receive pay from grant or university funds. Chapter 10 of the US Department of Labor’s Field Operation Handbook defines research assistants as students “engaged in research in the course of obtaining an advanced degree and the research is performed under the supervision of a member of the faculty in a research environment provided by the institution under a grant or contract.” If employed on a grant, the work performed must directly relate to the objectives of the grant. Graduate research assistants and doctoral research assistants can be appointed for a semester, the academic year, or the duration of a research project or any portion thereof, and paid on a monthly basis. They are exempt from the FLSA under the graduate research exemption, as provided in the June 28, 1994 DOL opinion letter #1263.

- **Graduate Assistants and Doctoral Assistants (GA/DA)** are employed by a department or university office and may receive pay from grant or university funds. Responsibilities may include research (not under the supervision of a faculty member), technical assistance, and institutional support. To avoid conflicts of interests, graduate and doctoral assistants cannot have access to records of graduate students of their degree-granting department. Graduate assistants and doctoral assistants who have access to records must be Family Educational Rights and Privacy Act (FERPA) trained and sign a confidentiality agreement. Graduate /doctoral assistants are considered non-exempt and are not eligible for paid leave including holidays. Students who work over 40 hours in a week will be compensated at time and one-half.

**Academic Expectations**

All assistants must have unconditional acceptance into a graduate degree program. All assistants must maintain a minimum 3.0 Texas State GPA in course work leading toward completion of a graduate degree.

**Course Load**

The minimum course load required during a fall/spring term of employment as a graduate assistant is nine graduate semester hours. Students who enrolled in nine graduate semester hours during the prior spring and fall semesters (or with an approved exception on file) are not required to enroll during the summer; otherwise, enrollment in three graduate hours is required for the summer term. Assistants taking more than 12 graduate semester hours during the fall/spring terms must have approval from the dean of The Graduate College. Similarly, assistants taking more than six graduate semester hours per summer session must have approval from the dean of The Graduate College. If an international student starts their degree program in the summer they must be enrolled in 9 semester hours in the summer.

**Required Teaching Assistantship Courses**

As a condition of employment, all GTAs, DTA, GIA, and DIA must complete a total of three hours of professional development course work. The course titles for the required in-service teaching courses vary by department. Some departments offer one three-hour course, some departments offer a two-hour and one-hour course for a combination of three hours, and other departments offer a one-hour course to be taken three times. Assistants enroll in the course offered by the department in which they are employed during their first term of employment and continue to enroll in subsequent terms until the three-hour requirement is met, as applicable. **Students may not enroll in this course work beyond the required three hours.** Up to a total of three semester hours may be used with other graduate courses to satisfy the minimum nine semester hours of enrollment required as a condition of employment. The University administration will cover the fees and tuition for the required teaching assistantship course (up to a total of three semester credit hours only). The hiring department must submit the Mandatory Graduate Assistantship Courses form, which requires the student’s signature, prior to census day. The form is located under University Approved Forms at www.sbs.txst.edu/students/waivers-exemptions.html (https://www.sbs.txst.edu/students/waivers-exemptions.html).

**Allowable Work Hours**

During the fall and spring terms, assistants may work up to 50% (20 hours per week) full time equivalent (FTE). During the summer term, assistants may be approved by the dean of The Graduate College for additional hours, up to a maximum of 75% FTE (30 hours per week) only if the entire position is externally grant-funded and up to a maximum of 100% FTE if
the position is externally funded and the project is directly related to the
student's thesis or dissertation thesis/dissertation. An exception request
with justification from the graduate advisor or department chair approved
by the dean of The Graduate College must be on file with The Graduate
College for employment requested over 50% FTE.

Teaching Load for Graduate/Doctoral Teaching Assistants
The usual semester hour teaching load during the fall or spring term is
six semester hours or two classes. The usual semester hour teaching
load during a six-week or eight-week summer session is one course (up
to a maximum of four hours). A twelve-week summer session carries
a normal teaching load of six hours. The dean of The Graduate College
must approve any exceptions to these teaching loads.

These policies are designed to protect the graduate/doctoral assistant
from bearing an unfair employment and course load, which could impede
the timely completion of the degree.

Refer to UPPS 07.07.06 (http://www.txstate.edu/effective/UPPS/
upps-07-07-06.html), Salaried Graduate Assistant Employment
Procedures, for more detailed information regarding salaried graduate
student employment procedures.

Assistantship Orientation
Most departments conduct one or more orientation sessions for new
assistants. Newly-hired assistants should inquire about orientation attendance requirements with the department or university office at the
time they apply for employment.

Academic Eligibility Requirements
To see a detailed list of academic and enrollment requirements needed
to be eligible for a specific assistantship position, please view The
Graduate College's guide (https://www.gradcollege.txstate.edu/docs/
gapcr_checklist.pdf).

How to Apply for a Graduate Assistantship
Applications for assistantships should be made directly to the
department or university office following their application procedure. It is
also possible to apply for certain assistantship positions online through
Career Services at Handshake (https://txstate.joinhandshake.com/
login/).

Selection and Appointment
Offers of assistantships are contingent on available funds and admission
of the applicant to a degree-seeking graduate program. Graduate
assistantship appointments range from a four-and-one-half month period
during a summer term to a nine- or twelve-month period during the fall
or spring term. The term of an appointment for a Research Assistant
may be based on the period of available grant funding. Renewal is
at the discretion of the department or university office for which the
student is employed. In all cases, the account manager or the manager's
designee will decide who is hired in accordance with the qualifications
and standards required for the position.

Supervision and Evaluation
Teaching assistants are the "teacher of record" for the course(s)
assigned; however, they are under the direct supervision of a faculty
member experienced in the teaching discipline. Instructional assistants
are supervised by the Instructor of Record or Laboratory Coordinator
of the courses assigned. Research assistants are usually supervised
by the faculty member or office supervisor with whom they work. All
assistantship positions undergo regular evaluation as required by the
department in which they are employed.

Salaries and Benefits
Assistants are paid in accordance with the University Pay Plan salary
schedule which can be viewed at www.hr.txst.edu/compensation/
universitypayplan/studentemployees.html (https://www.hr.txst.edu/
compensation/universitypayplan/studentemployees.html).

Eligibility for In-state Tuition
Certain assistantship types may qualify for tuition waivers through the office of Student Business Services. For more details, please refer to the
Tuition Waivers and Exceptions list here: http://www.sbs.txstate.edu/
students/waivers-exemptions.html.

Health Insurance
Assistants, employed at least half-time (50% FTE) for a minimum
period of four and a half consecutive months, are eligible for employer
group insurance plans administered by the Human Resources Benefit
Office. Assistants may choose between the Student Insurance Plan
administered by the Student Health Center and the Employer Group
Insurance Program administered by the Human Resources Office. Also,
some assistants may already be covered by insurance outside the
university and, therefore, may choose not to enroll in a health insurance
option offered by Texas State. Assistants should refer to the comparison
summary on the Human Resources Office web site in order to make
an educated decision. UPPS 07.09.04 International Student Health
Insurance, requires all enrolled international students with non-immigrant
F-1 and J-1 visa classifications to purchase coverage under the
designated international student health insurance policy as a condition of
enrollment. The premium will be automatically billed to the international
student's account.

Non-Discrimination
No person shall be excluded from participation in, denied the benefits of,
or be subject to discrimination under, any program or activity sponsored
or conducted by Texas State University on any basis prohibited by
applicable law, including race, color, age, national origin, religion, gender,
sexual orientation, or disability.

Student Employee Termination, Separation, and
Grievance Procedures
The policy and procedures for addressing unsatisfactory job performance
and separation are outlined in UPPS 07.07.04. This policy also describes
the available employment grievance procedures available to student
employees.
