

## Program Overview

The School of Journalism and Mass Communication offers an opportunity for media professionals and recent graduates to expand their education and training within the mass communication field by earning a Master of Arts (M.A.) degree. The program is geared toward working professionals with or without a background in mass communication.

Students in the M.A. program take a variety of skills-based and theory courses. The curriculum provides students with the digital and analytic skills needed for the field of mass communication.

Students complete an 18-hour core as well as electives. Students create a professional project to graduate. Core courses focus on media writing, digital storytelling, law/ethics, digital media issues, mass communication, theory and research. Electives address a variety of topics such as: human-computer interaction, web design, media design, content management, strategic communication campaigns and crisis communication. Students can earn internship credit and also have the opportunity to study abroad.

Courses are offered face-to-face in the evening, online, or via a hybrid teaching model because a large percentage of students enrolled are working professionals.
