The Department of Mathematics provides an environment at the forefront of research that produces highly qualified mathematics and mathematics education graduates who further Texas’s status as a mathematics, science, and technology leader. We offer a rich mathematical experience students develop critical thinking skills, communicate mathematical concepts effectively, and grow as lifelong learners. We maintain a nationally recognized community of faculty and students in mathematics, mathematics education, and related disciplines.

Goals
The Department of Mathematics offers an MS in Mathematics with optional concentrations in Applied Mathematics and Statistics, an M.Ed. in Mathematics, and a Ph.D. in Mathematics Education. The programs are designed to prepare students to apply mathematics or statistics to solve real-world problems, teach mathematics at the K–12, community college, or college level, enter doctoral programs, or conduct research in mathematics, statistics, and mathematics education.

Faculty
The faculty has specialists in algebra, analysis, applied mathematics, bifurcation theory, bioinformatics, combinatorics, differential equations, differential geometry, graph theory, logic, mathematics education, nonlinear functional analysis, model theory, number theory, operator theory, quadratic forms, statistics, and algebraic and geometric topology. The faculty oversees an extensive library collection of journals and reference works, with current journals accessible online and in the library.

Financial Assistance
Mathematics graduate students are encouraged to work as assistant instructors. The stipends for these assistantships are comparable to national norms and generally require teaching two courses per term. Write to the Graduate Program Coordinator at mathgrad@txstate.edu to obtain more information. The Graduate College can provide information on the availability of graduate scholarships. There are also stipends available for Research Assistantships through faculty research grants. Additional summer support is available as Instructional Assistants or Research Assistants. Contact the department for more information.

Doctor of Philosophy (Ph.D.)
- Major in Mathematics Education (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/education-phd/)

Master of Education (M.Ed.)
- Major in Mathematics (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/med/)

Master of Science (M.S.)
- Major in Mathematics (Applied Mathematics Concentration Non-thesis Option) (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/appliedmath-nonthesis-ms/)
- Major in Mathematics (Applied Mathematics Concentration Thesis Option) (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/appliedmath-thesis-ms/)
- Major in Mathematics (Non-thesis Option) (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/nonthesis-minor-ms/)
- Major in Mathematics (Non-thesis Minor Option) (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/nonthesis-minor-ms/)
