The Department of Mathematics provides an environment at the forefront of research that produces graduates highly qualified in mathematics and mathematics education who will contribute to making Texas a leader in mathematics, science and technology. Offering a rich mathematical experience where students learn to think critically, communicate mathematical concepts effectively, and become lifetime learners, we maintain a nationally known community of faculty and students in the study of mathematics, mathematics education, discrete mathematics, and related disciplines.

Goals

The program courses are designed to develop studies appropriate to preparing students for doctoral research, community college teaching, public school teaching, or careers in applied mathematics.

Faculty

The faculty has specialists in algebra, analysis, applied mathematics, bifurcation theory, differential equations, differential geometry, non-linear functional analysis, number theory, graph theory, combinatorics, mathematics education, quadratic forms, and topology. The library collection is extensive in both journals and reference works with current journals available.

Financial Assistance

Mathematics graduate students are encouraged to work as assistant instructors. The stipends for these assistantships are comparable to national norms and generally require teaching two courses per term. Information may be obtained by writing the department chair. The Graduate College can provide information on the availability of graduate scholarships.

Doctor of Philosophy (Ph.D.)

• Major in Mathematics Education (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/education-phd)

Master of Education (M.Ed.)

• Major in Mathematics (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/med)
• Major in Middle School Mathematics Teaching (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/middle-school-teaching-med)

Master of Science (M.S.)

• Major in Applied Mathematics (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/applied-ms)
• Major in Mathematics (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/ms)

Minor

• Mathematics (http://mycatalog.txstate.edu/graduate/science-engineering/mathematics/minor)
