DEPARTMENT OF AGRICULTURE

Agriculture Building Room 206
Telephone: 512-245-2130 Fax: 512-245-3320
www.ag.txstate.edu (http://www.ag.txstate.edu)

Agriculture majors have a choice of four different degree tracks:

• Agriculture,
• Agriculture (teacher certification option),
• Agriculture Animal Science,
• Agriculture Business and Management.

The Department of Agriculture offers programs reflecting the diversity of choices available and skills required in modern agriculture and its related professions. This dynamic, global industry uses new technologies to improve the production, management, manufacture, and distribution of food and agricultural products.

Major in Agriculture

Agriculture majors are provided a broad exposure to agriculture. With this curriculum, students may expect to manage a ranch or a farm, or work in any career that requires a general agriculture education such as county extension agents, banking or government service.

Major in Agriculture with Teacher Certification in Agriculture, Food and Natural Resources

A comprehensive educational program concerned with the broad field of agriculture. Emphasis in the major is on production techniques, managerial skills and competencies necessary to function as agricultural scientists, educators, or agricultural managers in today's complex agricultural industry. Agriculture teachers are certified to teach in grades six through twelve in the public schools of Texas.

Major in Agriculture Animal Science

The study of all aspects of the livestock and poultry industries including commercial production and management; food processing; and animal feed/animal health including nutrition, biotechnology and veterinary medicine. Involvement of students in ongoing faculty research prepares graduates for careers in research and industry; and for further education in veterinary schools or graduate schools. Students may pursue a Pre-Veterinary Science Concentration with this major.

• Pre-Veterinary Science concentration provides specialized course work for students planning to enter veterinary school.

Major in Agriculture Business and Management

This major reaches far beyond the farm to encompass the activities involved in bringing food and fiber to consumers. Students may pursue three concentrations with this major:

• Agribusiness Management. In this concentration students learn about the acquisition and use of capital, the working of the marketplace, financial institutions, and the effect of government policies on agriculture. Therefore, the Agribusiness Management concentration includes courses in agricultural finance, marketing and policies dealing with resource use as well as courses in technical agriculture and general education core curriculum.

• Agricultural Systems Management. This concentration integrates and applies engineering technology, agricultural sciences, and business. It prepares graduates for careers in technical fields and engineering such as agricultural machinery and power systems, electrical energy systems including sensors and controls, agricultural structures, surveying, and environmental systems including water utilization and quality. Students are involved with ongoing research, farm power and machinery, and precision farming and global positioning systems. Graduates are expected to assume positions of leadership and responsibility in careers such as product testing and service management, agricultural sales and services, and agricultural production systems.

• Horticultural Business. This concentration teaches management of commercial establishments and institutions that produce ornamental plants such as greenhouses and nurseries, floral shops and plant therapy businesses. The major also contains specialized courses in horticulture that utilize greenhouses, the Freeman Center and the Living Library Gardens.

Internship

Students are encouraged to apply for internships and enroll in AG 4310 after their junior year. The department will assist students in securing internships in agriculturally related businesses or agencies.

Minors

The Department of Agriculture offers four undergraduate minors (Agriculture, Animal Science, Horticulture, and Plant and Soil Sciences). Students with a declared major within the Department of Agriculture require at least nine (9) unique hours to select a minor in another agriculture subject.

Bachelor of Science in Agriculture (B.S.A.G.)

• Major in Agriculture (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture-agriculture-bsag)
• Major in Agriculture (Teacher Certification in Agriculture, Food and Natural Resources, Grades 6-12) (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture-agriculture-teacher-certification-science-technology-grades-612-bsag)
• Major in Agriculture Animal Science (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture-agriculture-animal-science)
• Major in Agriculture Animal Science (Pre-Veterinary Concentration) (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture-agriculture-animal-science-pre-veterinary-concentration)
• Major in Agriculture Business and Management (Agribusiness Management Concentration) (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture-agriculture-business-management-agribusiness-specialization-bsag)
• Major in Agriculture Business and Management (Agricultural Systems Management Concentration) (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture-agriculture-business-management-agribusiness-specialization-bsag)
• Major in Agriculture Business and Management (Horticultural Business Concentration) (http://mycatalog.txstate.edu/
undergraduate/applied-arts/agriculture/agriculture-business-management-horticultural-specialization-bsag)

Minors

• Agriculture (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture/agriculture-minor)
• Animal Science (http://mycatalog.txstate.edu/undergraduate/applied-arts/agriculture/animal-science-minor)
• Horticulture (http://mycatalog.txstate.edu/undergraduate/applied-arts/horticulture-minor)
• Plant and Soil Science (http://mycatalog.txstate.edu/undergraduate/applied-arts/plant-soil-science-minor)
• Second Teaching Field in Agriculture, Food and Natural Resources (Grades 6-12)

Courses in Agriculture (AG)

AG 1110. Careers in Agriculture.
This course is an introduction to careers available in the broad field of agriculture including an overview of personal and career qualifications needed for workplace success.
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: AGRI 1131

AG 1445. Basic Animal Science.
An introductory course designed to acquaint students with the importance of the livestock industry. A study of the types and breeds; market classes and grades of beef cattle, swine, sheep, goats, horses, and poultry; attention will be given to breeding, judging, care, and management.
4 Credit Hours. 3 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1419

This course prepares students for professional leadership and service, with emphasis on application of leadership principles. The course will focus on guiding students in developing enhanced leadership skills through group and individual leadership enhancement projects and topic research. Prerequisite: AG 1110.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 2345. Horse Management.
A course designed as a broad but thorough coverage of most areas of horse husbandry and production, including anatomy, physiology, breeding, feeding, training, and health care. Laboratory sessions are designed to acquaint the student with modern methods of breeding, training, and care of the horse.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 2367. Animal Ultrasonography.
A study of current developments and utilization of animal ultrasonography technology in agriculture. Hands-on training in animal growth and development, animal breeding, animal handling and management, animal reproduction, computer technology and data interpretation.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 2373. Introduction to Agricultural Engineering.
An introductory course designed to acquaint students with a wide range of concepts, principles and applied technologies in agricultural engineering. A problem solving course.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 2303

AG 2374. Metal Fabrication and Welding Technology for Agriculture.
This course covers the principles and practices of applied metallurgy and welding. Emphasis is given to the management of the technologies and techniques associated with oxy-fuel cutting, shielded metal arc welding (SMAW), Gas Metal Arc Welding (GMAW), Gas Tungsten Arc Welding (GTAW), and Plasma Arc Cutting (PAC). Prerequisite: AG 2373 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 2379. General Horticulture.
A survey of the general field of horticulture including general areas of employment.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1315

AG 2383. Introduction to Agricultural Economics.
The role of agriculture in the general economy; the study of basic economic concepts with their application to the agricultural firm; the structure and operation of the marketing system; the functional and institutional aspects of agricultural finance; international trade; and government farm programs.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter
TCCN: AGRI 2317
AG 2390. Computer Applications in Agriculture.
Introduction to computers and computer technology; operation and application of the computer in production agriculture and agricultural business, services and industries. Includes characteristics of computer hardware and software, accessing and using the computer in agriculture.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
TCCN: AGRI 1309

AG 3301. Genetics of Livestock and Plant Improvement.
Fundamental principles of genetics and their application to higher plants and animals. The physical basis of Mendelian inheritance, expression and interaction of genes, gene frequency, linkage, sex linkage, inbreeding, line breeding, and crossbreeding as applied to selection indices for livestock and plants. Prerequisites: AG 1445 and BIO 1130 and BIO 1330 all with a grade of D or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 3302. Herbaceous Plant Materials.
This course will include the identification, selection, use, and management of annuals, perennials, herbs, and ornamental grasses in the landscape. Each student will learn irrigation, fertilization, pruning, and other cultural needs of such plants. The laboratory will complement lecture.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3304. Propagation of Horticultural Plants.
Principles and practices of propagating ornamental plants, vegetables, and fruits by sexual and asexual methods including germination of seed, layerage, graftage, division, cuttage, bulbs, corms, and other vegetative plant structures. Study of physical, physiological and environmental factors affecting propagation of ornamental plants.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3305. Woody Plant Materials for Outdoor Landscapes.
Study of woody plant material including fruit and ornamental trees, shrubs, and ground covers and their identification, nomenclature, and use in the planting and development of home landscapes.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3306. Flowers and Plants for Interior Design.
Study of flowers, cut flowers, foliage and blooming pot plants to enhance the interior design of homes and businesses including their identification, cultural requirements, uses, diagnoses and corrective measures of disorders. Basic principles of flower arrangement and the preparation of floral and plant decoration as used in interior design. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required Writing Intensive
Grade Mode: Standard Letter

AG 3308. Organic Gardening.
Study of principles and practices that involve the production of vegetables by organic methods. Fertility and irrigation; as well as weed, insect and disease control by practices will be covered.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 3310. Agriculture Power and Machinery Technology.
This course covers the principles of 2 stroke and 4-stroke cycle engines, ignition, and combustion types including injection systems. Components including power and power transmissions and hydraulic systems will also be addressed. Prerequisites: AG 2373 and MATH 1315 or MATH 1319 or MATH 2321 or MATH 2471 all with a grade of D or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3314. Animal Health and Disease Control.
A course designed to enable the animal science student to understand basic veterinary principles as applied to prevention of disease in domestic livestock. Common diseases of livestock are considered, with emphasis on sanitation and modern preventative methods concerned with keeping livestock healthy. Prerequisite: AG 1445 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 3317. Farm Management.
Tools and techniques which are basic to the study of farm organization and decision making, the wise allocation of factors of production, the keeping of records, and income tax management. Prerequisites: MATH 1315 or MATH 1319 and AG 2383 and AG 2390 all with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3318. Agricultural Business Management.
This course introduces institutions and functions of agribusiness. The institutional structure of agribusiness such as feed, farm machinery and equipment, farm chemicals, financial institutions and private and public agri-services will be delineated. Various agribusiness functions such as organizational behavior and financial, market and human resource management will be discussed. Prerequisites: MATH 1315 or MATH 1319 or MATH 2321 or MATH 2471 and AG 2383 and AG 2390 all with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

This course presents the food and fiber system from an international perspective. Analysis of food production and consumption patterns under different world economic systems, causes of surpluses and shortages throughout the world; the role of trade in solving food and agricultural problems. Global outlook and situation for food and fiber. (MULT).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Multicultural Content
Grade Mode: Standard Letter
AG 3321. Range Management.
Practical problems met in managing native pastures and rangelands.
Attention to determining range condition and proper stocking rates,
methods of handling livestock on the range, range reseeding, brush
control, and poisonous plants. The ecological and physiological response
of range vegetation to grazing. Prerequisite: AG 1445 with a grade of "D"
or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

Principles of animal nutrition with emphasis on digestion, absorption,
metabolism, and function of nutrients; estimation of feedstuffs nutritive
value; and requirements of animals. Prerequisites: BIO 1130 and BIO 1330
and CHEM 1141 and CHEM 1341 all with a grade of "D" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 3329. Economic Entomology.
A study of the most common insects of field crops, fruits, and vegetables;
life history, methods of attack, damage, and means of preventing and
controlling. Collection and mounts of insects will be made.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

Basic and fundamental principles of nutrition for ruminant and non-
ruminant wildlife with emphasis in North American and African wildlife.
Attention will be given to digestive physiology and anatomy, feed sources,
forage resources, and nutrient requirements. Prerequisite: AG 1445 or
BIO 1330 and BIO 1130 all with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

AG 3331. Reproduction in Farm Animals.
An examination of the anatomy and physiology of reproductive systems
of livestock of economic importance. Attention is given to reproductive
failure and disease. The laboratory includes pregnancy testing, semen
collection and evaluation, artificial insemination techniques, and
evaluation of breeding records. Prerequisites: AG 1445 and 3301, or
BIO 2450 all with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3345. Livestock Selection and Evaluation.
Detailed consideration of the factors involved in the selection and
evaluation of beef cattle, sheep, swine, rabbits, goats, and chickens.
Emphasis will be placed on the care, grooming and exhibition of livestock
projects. Prerequisite: AG 1445 with a grade of "D" or better; junior
classification.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3351. Agricultural Marketing and Sales.
A study of the food marketing system and farm input sales; includes
the functional systems approach that integrates the agricultural input
industries into a discussion of food marketing; takes a micro approach to
the development of marketing management skills needed in agribusiness;
and provides a critical outlook on issues ranging from inputs to final food
products. Prerequisites: AG 2383 and MATH 1315 or MATH 1319 all with
a grade of "D" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3352. Quantitative Methods in Agricultural Economics.
Principles involved in collection, tabulating and analyzing agricultural
data. Topics include sampling procedures, questionnaire development,
descriptive analysis of data, correlation, prediction and forecasting
and tests of significance. Simple computer programs will be stressed
for class exercises during the course. Prerequisite: MATH 1315 or
MATH 1319 or MATH 2321 or MATH 2471, all with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3353. Agricultural Structures and Environment.
Principles and practices associated with structural components,
selection, materials of construction, heat and moisture control, and the
environmental issues of waste management systems; a problem solving
course. Prerequisites: MATH 1315, AG 2373 and AG 2390 all with a grade
of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3354. Management of Agricultural Machinery and Equipment.
This course addresses the optimization of the equipment phases
of agricultural production and processing. Emphasis will be placed
on management and decision making principles concerned with the
efficient selection, operation, repair, maintenance, and replacement
of machinery and equipment. Prerequisites: MATH 1315 or MATH 1319 or
MATH 2321 or MATH 2471 and AG 2373 and AG 2390 and CHEM 1141
and CHEM 1341 all with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 3426. Soil Science I.
This course introduces fundamental principles of soil science to acquaint
the student with some physical, chemical, and biological properties of
the soil. Prerequisites: CHEM 1341 and CHEM 1141; and AG 2313 or AG 2379
or BIO 1330.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter
AG 3427. Soil Science II.
Management of soils as pertaining to their place in the environment. Special emphasis will be given to the role of soil in conventional agricultural systems, natural resource systems, waste management systems, and reclaimed and artificial soil systems. (WI) Prerequisite: AG 3426.
4 Credit Hours. 3 Lecture Contact Hours. 3 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

AG 3455. Land Surveying.
Engineering practices used in plane and geodetic surveying including differential and profile leveling, topographic, land, boundary and cadastral, and construction surveys. Laboratory exercises include use of dumpy levels, transits and total stations, and GPS (Global Positioning System) total station with RTK (real time kinematic). Planimeters and stereoscopes are used in analyzing aerial maps. Prerequisites: MATH 1315 or MATH 1317 or MATH 1319; AG 2373 and AG 2390.
4 Credit Hours. 2 Lecture Contact Hours. 4 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

A course for advanced undergraduates to study subject matter of special interest in agriculture. Problems in agronomy, economics, animal science, plant science, and farm mechanics may be selected. Prerequisite: Approval by department chair. May be repeated for up to three semester hours credit. Course may not be taken for graduate credit. (Wi).
1 Credit Hour. 1 Lecture Contact Hour. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing|Dual Enrollment Permitted|Writing Intensive
Grade Mode: Standard Letter

AG 4212. Program Building.
This course focuses on program and curriculum development in agricultural education settings. Primary course elements will include determining program and curriculum goals and objectives, implementing the program, and curriculum evaluation. Corequisite: AG 4343 with a grade of "D" or better. Concurrent enrollment allowed.
2 Credit Hours. 2 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 4300. Greenhouse and Nursery Management.
Planning greenhouses for commercial and home use; plant-nursery layouts. Study of the physical and economic factors affecting the production of plants in the greenhouse and other forcing structures, and in the field; management techniques used in the production and marketing of greenhouse and nursery plants. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

AG 4302. Fruit and Vegetable Crop Production.
Factors influencing small-fruit and tree-fruit and vegetable crop production in the field including root stocks, varieties, soil, planting, transplanting, irrigating, fertilizing, pruning, insects, diseases, nematodes, weeds, chemicals, harvesting, storing, and marketing; greenhouse production of certain vegetables. Prerequisite: AG 2313 or AG 2379 with a grade of "D" or better. (WI).
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter

AG 4304. Landscape Management.
To acquaint students with the practices and techniques used in professional landscape construction and management, and with the scientific and technical basis for such practices.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 4305. Landscape Design.
Landscaping combines elements of art and science to create functional, aesthetically pleasing outdoor space. This class helps students develop knowledge of design elements and principles. Students learn site and client analysis techniques for critiquing landscapes. Students learn to communicate ideas through the planning and drawing of landscape plans.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 4307. Professional Development in Agriculture.
This course requires students to select a topic of current interest appropriate to the major. Critical analysis of the situation including both positive and negative aspects will be encouraged. Findings will be presented in both oral and written form. (Capstone Course). Senior Classification required to enroll.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 4310. Agricultural Internship.
This course integrates professional and academic experience through internship with an external employer. The internship is designed to provide actual work experience, observation and analysis in the student's chosen career field. Prerequisites: Junior or Senior standing and a GPA of 2.75 or better.
3 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing
Grade Mode: Standard Letter

AG 4311. Instructional Methods for Career and Technology Educators.
An analysis of the instructional techniques, strategies and methods appropriate to the effective teaching of career and technology subjects. Teaching special populations and teaching in multicultural environments will be addressed. To be taken the Fall semester before student teaching.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required|Writing Intensive
Grade Mode: Standard Letter
AG 4325. Feeds and Feeding.
Study of feedstuffs used in livestock enterprises. Application of basic nutrients to the needs of different species of livestock. Formulating rations, methods of feeding, feed control laws, and feeding investigation. Prerequisites: AG 1445 and CHEM 1341 and CHEM 1141 and BIO 1330 and BIO 1130 all with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 4326. Advanced Animal Science-Ruminants.
The application of scientific and technological advances to production and management in ruminant animal production and management. Prerequisite: AG 1445 with a grade of "D" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Lab Required
Writing Intensive
Grade Mode: Standard Letter

Application of basic principles in the production and management of nonruminant animals. Scientific and technological advances with emphasis on overall management, health care, nutrition, genetics, physiology, and marketing of nonruminant animals. Prerequisite: AG 1445 with a grade of "D" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 4330. Food Technology: Processing Meats.
Evaluation and grading of carcasses; wholesale and retail cuts of beef, pork, lamb, and poultry. Emphasis on quality controls, testing of finished products that have been frozen, cured, fried, pickled, and canned. Prerequisites: AG 1445 and BIO 1130 and 1130 and CHEM 1341 and CHEM 1141 all with a grade of "D" or better; or consent of instructor.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 4343. Organization and Management for Laboratory Programs.
This course examines instructional programs involving laboratory equipment and facilities. Curriculum, teaching methods, equipment and facility management practices including various aspects of safety, tool management, inventory and security are emphasized along with facilities layout planning. Must be taken in last semester of program. Co-requisites: AG 4212 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 4361. Agriculture Electric and Mechanical Systems.
Electrical fundamentals applied to agricultural production and processing. Circuits, power, energy, wiring design, and motor fundamentals; selection, installation and operational characteristics. Sensors and control devices including switches, relays, timers, and circuit breakers will be studied. Prerequisite: AG 2373 with a grade of "D" or better.
3 Credit Hours. 2 Lecture Contact Hours. 2 Lab Contact Hours.
Course Attribute(s): Lab Required
Grade Mode: Standard Letter

AG 4371T. International Horticulture.
The purpose of this program is to introduce students to the English culture and way of life, as well as England's historic role in Horticulture, past and present. Students will intensely study from the following four horticultural fields: Ornamental Horticulture, Landscape Design, Vegetables/Fruit Crops, and Vineyards and Hops. The program includes basic instruction in English history, as well as lectures and field trips.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

AG 4371U. Anatomy & Physiology of livestock.
A course examining the external and internal systems of livestock. Skeletal anatomy, cell physiology and biological systems will be explored, with emphasis on livestock. Prerequisite: AG 1445 with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Exclude from 3-peat Processing Topics
Grade Mode: Standard Letter

AG 4379. Agriculture Irrigation Technology.
This course teaches the principles associated with water management practices in maintaining soil productivity and the influence of water management on environmental quality. Emphasis will be placed on the selection and layout of irrigation and drainage systems, waste management systems, and the impact on the environment. Prerequisite: AG 2373.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 4380. Agricultural Finance.
This course introduces finance and financial problems faced by agribusiness managers. The subject matter includes financial analysis, planning, and control; capital budgeting; capital structure, liquidity, and risk management; and financial markets. Prerequisite: MATH 1315 or MATH 1319 or MATH 2321 or MATH 2471 and ACC 2361 and AG 2383 all with a grade of "D" or better.
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Grade Mode: Standard Letter

AG 4381. Agricultural Policy.
Identification and analysis of governmental programs and policies affecting the production and marketing of agricultural products. An economic evaluation of alternative policies and their application for farmers, consumers and agribusinesses will be considered. Prerequisites: AG 2383 and MATH 1315 or MATH 1319 all with a grade of "D" or better. (WI).
3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter
AG 4383. Agricultural Resource Economics.
This course introduces economic concepts and institutional factors relating to the use of agricultural resources such as land, air, water, energy, space, etc. Emphasis is on the conservation of resources and the environmental interactions resulting from the use of natural resources for agricultural production. (WI) Prerequisite: AG 2383, MATH 1315 or MATH 1319 or MATH 2321 or MATH 2471.

3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Standard Letter

AG 4681. Student Teaching in Agriculture, Food, and Natural Resources 6-12.
Students will apply knowledge and skills learned during the teacher preparation program while engaging in clinical practice with experienced Agriculture mentor teachers in school settings with university instruction and supervision. This culmination experience is required for Texas teacher certification. Requires departmental approval through OEP. Prerequisite: Admittance to the Educator Preparation Program; 2.75 Overall GPA; additional coursework may not be taken concurrently; For undergraduate students, all other degree-required coursework must be completed; For graduate and post-baccalaureate students, all certification coursework must be completed.

6 Credit Hours. 0 Lecture Contact Hours. 6 Lab Contact Hours.
Course Attribute(s): Writing Intensive
Grade Mode: Credit/No Credit
