The degree programs in the School of Criminal Justice prepare students to pursue one of three academic degree majors and to serve the community in the operation and management of criminal justice agencies which include: federal, state, county, and municipal law enforcement; probation; courts; institutional corrections; parole; and related agencies.

The Bachelor of Science in Criminal Justice has three available majors:

- Criminal Justice
- Criminal Justice Corrections
- Criminal Justice Law Enforcement

The majors are founded on an interdisciplinary and academic approach to the role of criminal justice in the maintenance of social order in a democratic society.

Students pursuing a degree in criminal justice should be willing to meet the standards required of such a career. The majority of criminal justice agencies require sound academic preparation, psychological stability, physical agility, and a record free of felonies or excessive traffic offenses. All three majors include optional internships, and students selecting an internship option must meet criteria described below. The Criminal Justice programs include the development of advanced research and writing skills and includes interdisciplinary course work.
