DEGREE AND PROGRAM INFORMATION

Texas State University offers a full range of programs in applied arts, business administration, education, the fine arts, general studies, health professions, the liberal arts, sciences, and engineering. This section of the catalog gives basic information about the undergraduate degrees, majors, minors, and alternative curricula available at Texas State. Certificate and degree programs are approved in accordance with guidelines provided by the Southern Association of Colleges and Schools Commission on Colleges, the Texas Higher Education Coordinating Board and The Texas State University System.

Special Requirements for the Bachelor of Arts

The following requirements apply to all Bachelor of Arts programs.

Minor Requirement

A minor is required and may be selected from any of the Texas State approved minors.

Science Requirement

In addition to completing the mathematics and the life and physical sciences requirements of the general education core curriculum, students must complete one additional science course (3-4 hours) from anthropology (biological anthropology only), biology, chemistry, computer science, geography (physical geography only), geology, mathematics, philosophy (logic only), physics.

Modern Language Requirement

An intermediate level proficiency demonstrated by successful completion of American Sign Language, Arabic, French, German, Italian, Japanese, Latin, Portuguese, or Spanish (2310 and 2320) is required. Most students will need to complete 1410 and 1420 as prerequisites before attempting 2310.

Select one of the following:

<table>
<thead>
<tr>
<th>ASL 2310 &amp; ASL 2320</th>
<th>Intermediate American Sign Language I and Intermediate American Sign Language II</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARAB 2310 &amp; ARAB 2320</td>
<td>Intermediate Arabic I and Intermediate Arabic II</td>
</tr>
<tr>
<td>CHI 2310 &amp; CHI 2320</td>
<td>Intermediate Chinese I and Intermediate Chinese II</td>
</tr>
<tr>
<td>FR 2310 &amp; FR 2320</td>
<td>Intermediate French I and Intermediate French II</td>
</tr>
<tr>
<td>GER 2310 &amp; GER 2320</td>
<td>Intermediate German I and Intermediate German II</td>
</tr>
<tr>
<td>ITAL 2310 &amp; ITAL 2320</td>
<td>Intermediate Italian I and Intermediate Italian II</td>
</tr>
<tr>
<td>JAPA 2310 &amp; JAPA 2320</td>
<td>Intermediate Japanese I and Intermediate Japanese II</td>
</tr>
<tr>
<td>LAT 2310 &amp; LAT 2320</td>
<td>Intermediate Latin and Intermediate Latin</td>
</tr>
<tr>
<td>POR 2310 &amp; POR 2320</td>
<td>Intermediate Portuguese I and Intermediate Portuguese II</td>
</tr>
</tbody>
</table>

English Literature Requirement

Select two of the following:

- ENGL 2310 British Literature before 1785
- ENGL 2320 British Literature since 1785
- ENGL 2330 World Literature before 1600
- ENGL 2340 World Literature since 1600
- ENGL 2359 US Literature before 1865
- ENGL 2360 US Literature since 1865

Note: Students who earn a "B" or "A" in the first sophomore literature course may choose to take an advanced literature course (3000 or 4000 level) instead of a second sophomore literature course.

Special Requirements for the Bachelor of Science

A minor is required and may be selected from any of the Texas State approved minors.

Pre-Professional Curricula

Students preparing to study dentistry, law, medicine, pharmacy, physical therapy, or veterinary medicine should enroll in the degree plan as suggested by the advisors listed below. Before each registration, the student should consult with an academic advisor.

Dentistry

The Dental Early Admission Program (DEAP) allows a qualified student to apply credits earned during Dental School to an undergraduate degree at Texas State, saving a year's coursework while earning both a bachelor's degree from Texas State and a dental degree from The University of Texas Health Science Center at San Antonio. A DEAP student enters and completes an accelerated undergraduate curriculum at Texas State including a minimum of 93 semester credit hours which can usually be completed in 3 years, 60 of these hours must be earned in residence at Texas State. Advanced placement and dual credit hours shall not be counted in the minimum of 60 hours in residence at Texas State. For more information contact the Department of Biology pre-health advisor, www.bio.txstate.edu/prehealthadvising (http://www.bio.txstate.edu/prehealthadvising).

Law

All accredited law schools in the state require at least the following from applicants prior to admission:

1. a bachelor’s degree,
2. superior grades, and
3. a satisfactory score on the Law School Admission Test (LSAT).

Pre-law students are urged to consult a pre-law representative, as appropriate, from the following Texas State colleges, schools, or departments:

- School of Criminal Justice,
- Emmett and Miriam McCoy College of Business Administration,
- Department of Philosophy, or
the Department of Political Science.

The pre-law student should also become familiar with the services available through the Student Learning Assistance Center. For more information contact your pre-law representative.

**Medicine**

Medical schools recommend an appropriate bachelor’s degree and specific prerequisites for entrance. For more information contact the Department of Biology pre-health advisor, www.bio.txstate.edu/prehealthadvising (http://www.bio.txstate.edu/prehealthadvising).

**Pharmacy**

Pharmacy is a six-year program, two years of which may be taken at Texas State. The seven pharmacy schools in Texas (Texas A&M Health Science Center Irma Lerma Rangel College of Pharmacy, Texas Southern University College of Pharmacy and Health Sciences, Texas Tech University Health Sciences Center School of Pharmacy, University of Houston College of Pharmacy, University of the Incarnate Word Feik School of Pharmacy, The University of Texas at Austin College of Pharmacy, and University of North Texas Health Science Center) all require two years of prerequisite courses in chemistry, biology, mathematics, physics, English, humanities and social sciences, but the exact courses required vary by school. Consequently, it is imperative that pre-pharmacy students consult with an advisor prior to and during their pre-pharmacy program. For more information contact the Department ofChemistry and Biochemistry.

**Physical Therapy**

The physical therapy profession requires a post-baccalaureate degree in order to practice; Texas State offers a Doctor of Physical Therapy degree program. For more information, contact the Department of Physical Therapy or visit www.health.txstate.edu/pt (http://www.health.txstate.edu/pt). The Department of Physical Therapy does not require a specific undergraduate degree in order to gain entrance into their program. However, the Department of Health and Human Performance (HHP) offers an undergraduate degree program that will prepare students to enter the application process for a physical therapy program. The main focus of this pre-professional program is to provide a strong theoretical background utilizing courses across multiple disciplines, including Athletic Training and Exercise and Sports Science, for admittance into a physical therapy program. Coursework will also help prepare students for professional degree programs in related fields, e.g., occupational therapy, chiropractor, and physician assistant. Because the prerequisites amongst professional programs vary, students should seek specific prerequisites for each program of interests.

See the HHP Department section of the catalog for specific course requirements in the degree plan for the Exercise and Sports Science major with a concentration in Pre-Physical Therapy.

**Veterinary Medicine**

The only College of Veterinary Medicine in Texas is at Texas A&M University. Prior to admission, students must complete at least 64 hours of coursework, which constitutes a pre-veterinary program. At Texas State, all students must choose a major in one of the 4-year bachelor’s programs. While any major is acceptable, majors in Agriculture Animal Science, Biology or Chemistry most nearly parallel the courses required in the pre-veterinary program.

Advising for students at Texas State who wish to pursue the pre-professional curriculum in veterinary medicine is available by contacting the pre-veterinary advisor in the Department of Agriculture at Texas State, or by appointment with the College of Veterinary Medicine at Texas A&M University.
