The School of Art and Design promotes the understanding of art in culture by providing a learning environment that advances students' critical and creative thinking, encourages diverse perspectives, and nurtures individual artistic expression. The School fosters creative and scholarly activities that develop students' conceptual and technical abilities and encourages visually articulate thinkers. The faculty come from diverse educational, professional and cultural backgrounds.

Through effective teaching, the School of Art and Design helps students achieve excellence in their individual, artistic and career goals.

Special Requirements

All students majoring in Studio Art or in Photography are required to participate in Portfolio, Practice and Exhibition (ARTS 4200) and the Senior Art Exhibition (ARTS 4000) within the academic year they plan to graduate. All students majoring in Studio Art (Teacher Certification in Art, Early Childhood through Grade Twelve) are required to meet teacher certification requirements. Refer to the Office of Educator Preparation (OEP). These students are also required to participate in the Senior Art Education Exhibition (ARTT 4000) and complete Thesis I (ARTT 4390) and Thesis II (ARTT 4391) within the academic year they plan to graduate. All students majoring in Communication Design are required to meet the program's admission requirements (<http://mycatalog.txstate.edu/undergraduate/fine-arts-communication/art-design/communication-design-bfa/>). These students are also required to participate in Senior Portfolio Presentation and Self-Promotion (ARTC 4315) and Senior Show and Review (ARTC 4200) within the academic year they plan to graduate. School of Art and Design Fitness Statement Program Standards

Students enrolled in the School of Art and Design B.A., B.F.A., or M.F.A. programs must maintain high scholastic standards and develop a mastery of the knowledge and methods of their respective discipline. Students are expected to demonstrate emotional and mental fitness in their interactions with others, use skills and methods that are generally accepted in the profession, and conform to the code of ethics of their respective discipline and the university's honor code. A student's acceptance in any program does not guarantee the student's fitness to remain in that program. The faculty is responsible for verifying that only those students who continue to meet program standards are allowed to continue in any program.

Evaluation of Student Fitness and Performance

Members of the faculty, using their professional judgments, evaluate student fitness and performance continuously. The criteria used by the faculty to make such judgments include instructors' observations of student performance in class or in activities related to courses. Students who are not making satisfactory progress or who are not meeting program standards should consider withdrawing from the program.

In this context, the term "satisfactory progress" refers to an academic judgment made regarding the student's fitness and performance. It is a judgment that the student has failed to meet program standards rather than a judgment made on the basis of the student's violation of valid rules of conduct. Disciplinary matters are referred to Student Justice.

Student Review Process

1. When a faculty member believes that a student is not making satisfactory progress or meeting program standards, they will discuss the situation with the student.
2. When the faculty member believes that the student's performance cannot improve to acceptable standards, the faculty member will refer the student to the School of Art and Design Standards Committee. The Committee consists of three Art and Design faculty members appointed by the Director in consultation with the School's Area Program Coordinators.
3. The Committee will notify the student of the reasons that he or she is not making satisfactory progress or meeting program standards. The student will be given an opportunity to meet with the Committee to respond and to present information and witnesses to the Committee. The Committee will also meet with the faculty member who referred the student.
4. After considering the matter, and within ten working days of meeting with the student, the Committee will report its decision to the student and the school Director, stating that the student should either remain in the program, or leave the program. The Committee may make other decisions, such as placing restrictions or conditions on the student's continuance in the program. Within ten working days of receiving the Committee's decision, the student will notify the school Director of the student's acceptance or rejection of the Committee's decision. If the student rejects the Committee's decision, he or she may appeal directly to the school Director.
5. Within ten working days of receiving the student's appeal, the Director will make a decision as to the student's continued presence in the program. Before making the decision, the Director will meet with the student. However, before making a decision, the Director need not meet with the student if the student was given a reasonable

opportunity to meet and either failed or refused to meet. The Director will notify the student of the decision.

6. If the student is dissatisfied with the Director's decision, he or she may appeal to the Dean of The College of Fine Arts and Communications. However, in order for the Dean to consider an appeal, the student must submit a written notice of appeal to the Director and the Dean within ten working days of receiving the Director's decision. The Dean will consider the matter based on information compiled by the Director and notify the student of the decision within ten working days of the Dean's receipt of the appeal from the Director. The Dean may meet with the student and give the student an opportunity to address the issues. The Dean's decision is final.
