

OTHER ADMISSION CATEGORIES

In addition to the more common admission types –freshman, transfer, returning (readmit) and international– Texas State admits and enrolls students from less common admission categories as well. Applicants for admission from these categories must comply with modified application procedures and, in some cases, special (category-specific) admission requirements:

- Early Admission
- Individual Review
- Second Bachelor's
- Transient/ Visiting
- Non-degree Seeking
- Special Talent

Visit undergraduate admission for details on what each of these additional admission categories represent and how to apply or be considered for any of them. Information concerning course audits may be found on the Office of the University Registrar's (<http://www.registrar.txstate.edu>) catalog page.
