Career Services prepares, inspires, and empowers students for career success, serving as a bridge between students' college experience and life after Texas State University. Starting their first year, and continuing beyond graduation, we are here to help support students on their career journey. In addition we help them connect their experiences—whether from the classroom, campus activities, on- or off-campus employment, internships, or even graduate school—to their post-graduation goals.

Among our services are:

Career Planning and Exploration - Career Counselors are available to help you research majors, study your career options, and plan and implement your professional future.

Career Advising and Job Search - Career Educators are also available to further discuss the job search process, including resumes, cover letters, interview skills, salary negotiations, and more.

Internships and Jobs - Using our online job search database, Handshake, students can find part-time and full-time employment, on-campus jobs and internship opportunities.

Employer Connections - Career Services works with employers to create opportunities for students to connect with potential internships and jobs while building their professional network. This is achieved by hosting a wide range of opportunities including career fairs, information sessions, on-campus interviews, and networking events.
