As Williamson County continues to experience significant annual growth — the population now exceeds 500,000 — the University Master Plan positions the Round Rock Campus to continue serving the needs of the area. Collectively, Texas State University's Round Rock Campus (http://www.rrc.txstate.edu/) (RRC) provides instructional and lab space, administrative offices, and student support services. The RRC offers upper-level courses leading to baccalaureate degrees in an array of disciplines including health professions as well as offering select master's degrees and Physical Therapy doctoral program. The needs of Central Texans are further served through certifications and continuing education, online and distance learning opportunities. Delivering vital education for working adults, professionals and lifelong learners leads to dynamic discussions and an enriched learning environment.

The RRC offers daytime and evening classes for students interested in completing their degree program while fulfilling other obligations. From its inception, the Round Rock Campus (http://www.rrc.txstate.edu/) (RRC) offered classes after 5:00 p.m. for the working adult as well as hybrid and online courses. Students can complete their freshman- and sophomore-level classes at the San Marcos Campus, at a community college or at some other accredited institution before transferring to the RRC.

**Undergraduate Degree Programs**

To register for undergraduate classes at the Round Rock Campus, it is recommended that students be nearing completion of their sophomore year or have earned at least 45 transferable hours. Students who intend to complete their junior- and senior-level classes at the RRC will follow the same application process (http://www.rrc.txstate.edu/prospective/starting.html) as other applicants to Texas State University. Support is waiting to help you expand your professional opportunities through completing your degree at the RRC.

**Graduate Degree Programs**

The RRC offers 16 master's degree programs and 1 professional doctorate in physical therapy (http://www.rrc.txstate.edu/about/programs/masters.html). For more information about admissions requirements and application procedures as well as the list of programs, visit The Graduate College website at www.gradcollege.txstate.edu (https://www.gradcollege.txstate.edu), call 512-245-2581, or email gradcollege@txstate.edu (http://mycatalog.txstate.edu/undergraduate/general-information/round-rock-campus/gradcollege@txstate.edu). The Graduate College welcomes your interest.
