3 Credit Hours. 3 Lecture Contact Hours. 0 Lab Contact Hours.

Course Attribute(s): Exclude from 3-peat Processing

Grade Mode: Standard Letter

The College of Health Professions prepares students for careers in the healthcare field. Through its professional, technical, clinical and academic programs, the college serves as an advocate for change and technical improvement in the field. The college also serves as a catalyst to expand and improve public perceptions of healthcare.

Undergraduate programs are available in clinical laboratory science, communication disorders, healthcare administration, health information management, health sciences, nursing, radiation therapy, and respiratory care. Graduate programs are offered in communication disorders, healthcare administration, health information management, nursing, physical therapy, and respiratory care. The college has a number of cooperating teaching sites with more than 1200 affiliations with hospitals and other healthcare facilities.

All programs offered in the College of Health Professions, except the B.S. with a major in health sciences, have specific admission requirements in addition to Texas State admission requirements. Most programs also have requirements for student liability insurance and immunizations. Background checks and drug testing may be required.

The Academic Advising Center provides academic advising to current and prospective undergraduate students considering a major in the College of Health Professions. Academic advisors provide guidance and information to current and prospective students regarding the selection of an undergraduate major or minor, program admission requirements, long term planning for degree completion and career goals, and campus resources to assist students in achieving their goals.
