

Minimum required: 120 semester credit hours

General Requirements

- Any student entering Texas State may enroll in the Bachelor of Science in Health Sciences (BSHS) pre-communication disorders concentration. The BSHS degree does not prepare students to attend a graduate degree program in communication disorders. Admission to Texas State does not guarantee admission to the Communication Disorders program. Admission to the Communication Disorders program is competitive and selective. It is recommended that students arrange academic advising at least once prior to submitting an application. The academic sequence begins during the fall semester of the junior year. The deadline for submission of applications is typically in the summer. Additional information may be found on the Communication Disorders catalog page (<http://mycatalog.txstate.edu/undergraduate/health-professions/communication-disorders/bscd/>).
- The general education core curriculum courses are listed in the degree plan below along with the statewide component core number. See the General Education Core Curriculum section of this catalog for the Texas State requirements and options in the core curriculum, including Honors courses.
- Students must complete a minimum of 36 advanced hours (3000 or 4000 level courses).
- Nine hours of writing intensive (WI) courses are required for graduation.
- Any student who did not complete at least two years of the same foreign language in high school is required to take 6-8 hours of the same foreign language.
- Students who chose to earn a BSHS degree must select a minor from the approved list of Undergraduate Minors (<http://www.mycatalog.txstate.edu/undergraduate/minors/>). If minoring in HA, do not take HA 3347. Work with your advisor for an alternate course.
- The degree plan listed below for the Junior and Senior years applies only to students who chose to earn a BSHS degree. Students admitted to the Communication Disorders program, see BSCD catalog page.
