Degree Program Offered

Bachelor of Business Administration (B.B.A.), major in Accounting

Texas State is one of only 186 business schools worldwide (top 5%) to be accredited in both general business and accounting by the Association to Advance Collegiate Schools of Business (AACSB). AACSB Accreditation is known, worldwide, as the longest standing, most recognized form of specialized/professional accreditation an institution and its accounting programs can earn.

The McCoy College of Business Administration Department of Accounting is a student-centered learning community that prepares a diverse student population for professional success, creates and values research and other intellectual contributions, and provides service to the profession, university and community.

To accomplish our mission, the Department:

• Provides instruction and curricula emphasizing critical thinking, communication skills, and use of technology that prepare students for the changing accounting environment.
• Promotes strong conceptual foundations, technical skills, and ethical decision making and practices that prepare graduates for professional licensure, professional certification, and for future leadership roles in businesses and organizations.
• Engages in research and intellectual contributions that impact the practice of accounting, enhance the understanding of the accounting discipline, and improve the process of educating future accountants.
• Seeks to attract, develop, reward, and retain a diverse, student-oriented faculty with professional knowledge who are committed to excellence in teaching, scholarship, and service, and who participate in university governance.
• Strives to build and maintain professional relationships among students, alumni, the accounting profession, and other stakeholders.

The accounting curriculum provides a broad education in accounting theory, and practice with an appreciation for ethical decision making. Students completing the four year prescribed program of study earn the Bachelor of Business Administration degree with a major in accounting. Career options include accounting for corporations, industry, governmental, and other not-for-profit organizations.

To meet the educational requirements to take the Uniform CPA Examination in Texas current law requires 150 semester credit hours, including 30 hours of upper-division accounting (including a research course), and 24 hours of upper-division business courses (including business communications). Students may contact the Texas State Board of Public Accountancy at (512) 305-7870 or at http://www.tsbpa.state.tx.us to verify the educational requirements. These hours cannot be satisfied with the B.B.A. degree with a major in accounting alone. The Department provides a 30 hour Master of Accountancy (M.Acy.) program which offers graduate level accounting courses that currently satisfy the accounting requirements. Students completing this graduate programs should experience greater opportunities for initial employment and career success. In addition to the career choices available to B.B.A. graduates, M.Acy. graduates position themselves for career opportunities in public accounting specializing in auditing, tax, or management consulting, corporate accounting, and accounting for nonprofit governmental organizations.

To make the transition from undergraduate to graduate easier, a Texas State Accounting major may apply for admittance to the M.Acy. program once the student has completed the following:

• at least 90 credit hours,
• at least 12 upper-level Accounting courses, and
• ACC 3313 and ACC 3314 with a grade of “B” or better.

All applicants to the M.Acy. program will provide the following:

• at least two complete reference forms,
• GMAT or GRE score, and
• an essay on the topic indicated in the application materials.

However, submission of the GMAT or GRE score will be optional for a Texas State Accounting major who:

1. has earned a 3.2 GPA or higher in the last 60 hours of coursework,
2. has earned a 3.4 GPA or higher in upper-level Accounting courses, and
3. provides at least two completed reference forms from Texas State faculty.

For more information about graduate program requirements and the admission process, please consult the graduate catalog. To talk with a graduate academic advisor, students should contact the Accounting Department, (512) 245-2566, or go to McCoy Hall 431.
